Dear friends,

As the founder of the "Family Outdoor Expo" I am humbled to write to you and share the good news. It is amazing to look back over the past five years and see where we have come from and to look forward to where we believe things are going. It takes a small army of amazing volunteers and a core planning team that meets on a some what regular basis to pray, prepare, and plan together. Each year we look to weave more creative ideas and activities into the event that introduce the families to the Creator!

My heart's desire was to create a day for children to catch a fish, climb a rock wall, ride a pony, ride a four-wheeler, learn about the great outdoors, paddle in our kayak pools, and experience a day like no other. To my surprise it has grown to be one of the largest community events on the gulf coast of its kind. From the free admission to the free activities and so much more a family can experience life like never before. For most of these children this will be the only fishing pond they will ever have or be the only pony they will ever get to be on the back of! The smiles and enjoyment last a lifetime.

You may be wondering how in the world does this happen? Well, first let me tell you it was by God's design through the hearts of men that this became a reality. Second, by the generosity of many individuals, families, companies, and private foundations we are able to almost cover all the expenses related to this event. Third, I must acknowledge over 500 amazing volunteers that give their hearts to making this a wonderful event for families from all over Texas.

As we venture down this road of expanding and creating many more new and exciting times at the Family Outdoor Expo we are always looking for new partners and players in this one of a kind event. I believe God has a specific purpose, plan, and design for your life and it just may be to come along side this venture to provide a new piece of the puzzle. If you would like to sit down over a cup of coffee or maybe a burger over lunch I would be honored to share more about this with you and answer any questions you may have! I can only imagine what the future holds!

Bringing the Outdoors Indoors,

Glen A. Dry
